## Carrier Alliances

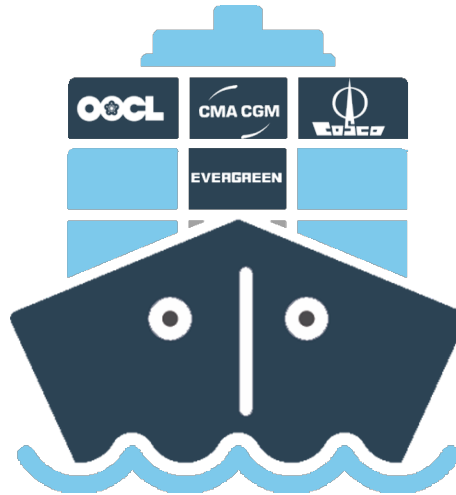

Following the collapse and demise of a large shipping line (Hanjin) in 2016/7, there followed a series of acquisitions and mergers before the surviving major lines organised themselves into three global carrier alliances. These alliances are a means of sharing vessels to provide full coverage and reduce costs. Each carrier retains its own identity and provides space on any vessels within their own alliance.

### 2M Alliance

Maersk Line  
MSC

### Ocean Alliance

OOCL  
CMA CGM  
COSCO  
Evergreen Line

### THE Alliance

ONE  
Hapag Lloyd  
Yang Ming
